OPERATIONS REVIEW

Your Company has a comfortable order book of ₹ 7273.45 Crores as on 31st March 2014 but translation of the order book into revenues remains a challenge due to delays in obtaining statutory clearances, land acquisition, indecision making by authorities and delay in settlement of disputes and claims. The finance cost of the company is gone-up due to stretched working capital cycles and additional loans borrowed. The input cost of raw materials has gone-up due to delays in the projects execution. The above factors have pulled down the profit margins of the company. Despite the unfavorable economic conditions, the company has achieved a turnover of ₹ 1812.53 Crores in FY 2014, which is lower by 10% as compared to previous year. The PAT margins are reduced to 2.62% in FY 2014 from 3.12% in FY 2013 mainly due to higher interest cost and material cost.

The IJM-Gayatri Joint Venture losses are not considered in the books of your company in view of the various claims made on the employer for their contractual failures by the joint ventures and the losses which are primarily attributed to such failures are likely to be decided in favor of the joint venture. The JV has raised claims in excess of ₹300 Crores on the National Highways Authority of India and Andhra Pradesh State Government, which are pending for consideration before the appropriate legal forum.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

The last three years were not the best for the infrastructure development in India. The slow down of the economy has impacted all sectors including construction sector. Post poll scenario, a new stable government in place, there is a sense of hope among industry for revival. The major problems that are affecting the infra sector are environmental clearances, land acquisition, indecision making by authorities and delay in settlement of disputes and claims. In such a challenging environment, most of the infrastructure companies are facing severe financial strain due to over leverage and many companies opted for the Corporate Debt Restructuring (CDR).

In FY14 targets set by Gol for most infrastructure sub-sectors were not achieved; in the roads sector NHAI was able to award just 15% of its targeted 7,500 km amid dwindling interest from private sector participants. The successful bidders are facing difficulties in achieving financial closure due to receding interest of the banks on road projects. The declining trend in aggregate new project announcements both in private and public sectors is continued during FY14 as well. The Construction majors are currently experiencing liquidity constraints due to stretched working capital cycles on account of delays, higher cost of inputs and higher interest cost. High debts for executing order books with high interest rates have led to further deterioration financials of the companies.

The slowing down of investment in infra has brought down overall investment in the construction sector. The land acquisition bill, introduced at the start of 2014, intended to quicken the process of acquiring land for developers and make more equitable the outcome for landowners. In reality, the bill has improved little, and by adding an additional layer of bureaucracy and negotiation, it has increased the transaction costs of acquiring land and delayed the development of affordable housing.

While the long term requirement for rapid infrastructure development in India remains a vital necessity, the sector faces several challenges. Apart from various structural problems that plague execution including a slow, almost paralysed government decision-making process, and practical issues with land acquisition as well as the challenges of dealing with social and environmental constraints that arise while developing infrastructure projects, the sector is fundamentally affected by a severe liquidity crunch and a financial squeeze. The FY13 targets set for most infrastructure sub-sectors were not achieved; in the roads sector NHAI was able to award just 15% of its targeted 7,500 km amid dwindling interest from private sector participants.

Outlook

Nevertheless, construction companies could witness business opportunities in the railways, ports, urban infrastructure and airports sectors. Given the importance of the project and the stated focus on its implementation, the Dedicated Freight Corridor (DFC) project is expected to provide significant opportunities to construction companies. The new government target will be pushing reforms at faster phase and putting India back on a course of faster growth. The economic reforms around infrastructure should encourage businesses to invest. The move of the Central Government to allocate ₹ 378.8 bn in NHAI for roads development and ₹ 30 bn for State Roads development will accelerate the growth of infra sector. The proposal of Government in developing the industrial corridors, smart cities, development of airports in Tier I and II cities, development of railway freight corridor/bullet train etc will open great opportunities in the construction sector.

Your Company has an outstanding order book of ₹ 7300 crores as on 31st March 2014 thereby providing revenue visibilities over next few years. The new Government at central is likely enhancing the investment in infra development. Further due to formation new State of Andhra Pradesh, we are expecting huge spending in development of new state capital in that way the business opportunities are likely to improve. The order book is likely to further improve in FY 2014-15 on account of new tenders in which company is actively participating.

According to the latest real GDP growth for 2013-14 will be 4.9% as against the 8% few years back. The real investment in fixed capital formation is drastically came down due to encomic slow down resulting slower growth in the construction sector. has introduced certain cost saving techniques at the sites due to which the construction cost is under control during the year.

Financial Charges: In percentage terms, the financial charges have increased to 8.81% of sales as compared to 6.69% in the previous year. The increase is due to additional borrowings the company availed to part fund the ongoing capital commitments in road and power sectors. Another reason for increase in interest expenses is due to hardening of bank interest rates by the banks.

EBITDA and PAT: In an extremely adverse economic, financial, regulatory and political environment, the Company has successfully executed projects without any significant delays. As compared to other peers which are declared losses, the company is able to declare the profits with lesser margins in comparison to the previous years. The management is of the firm opinion that the excess expenditure is expected to flow back through future cash flows on settlement of the claims by the employer. In the unlikely situation of not awarding the entire amount of claims, GPL has to provide an amount of ₹46.30 crores towards its share of 40% in the IJM-Gayatri Joint Venture.

30.5 Joint Venture Loss not considered

IJM-Gayatri Joint Venture

IJM – Gayatri Joint Venture is a joint venture in which IJM Corporation Berhad, Malaysia holds 60% and Gayatri Projects Limited holds 40% share. The Joint venture has executed road works during the period 1998-2006 in Package I, II & III and AP 13 of NHAI, APSH 7 and APSH 8 in the State of Andhra Pradesh.

An excess expenditure of ₹ 134.45 crores is incurred for completion of the IJM Gayatri JV by our company and the same is debited to the JV account. The JV has not accounted the same due to pending claims with the employers and with an intention to account the same as and when the claims are actually realised.

The JV has raised claims in excess of ₹ 300 Crores on the National Highways Authority of India and Andhra Pradesh State Government, which are pending for consideration before the appropriate legal forum. So far the joint venture has got favorable awards amounting to ₹ 61.99 crores including interest on claims and the remaining claims are under adjudication. Out of the favorable awards, the JV has received orders for release of payments for ₹ 29.01 crores and as against this the JV has received ₹ 18.70 crores which is passed to the Company. Further in respect of APSH-7 and 8, the honorable High Court of Andhra Pradesh has order to release 50% of the claim amount (about ₹ 3.00 crores) and the release of payment is under process. The management is reasonably confident of recovering substantial amount from these claims. In the unlikely situation of the claims not being received to the extent of expenditure incurred, IJM-Gayatri Joint Venture has to account the net expenditure of ₹ 115.75 crores (Previous Year ₹ 115.75 crores) in its books and the Company has to provide an amount of ₹ 46.30 crores (Previous Year ₹ 46.30 crores) towards its 40% share of loss in the joint venture.

During the year under review, SEBI has referred the above note to the “Financial Reporting and Review Board (FRRB)” for further examination and company has submitted the relevant information/explanation to the competent authorities. The matter is under examination with the FRRB.

We have audited the accompanying consolidated financial statements of **Gayatri Projects Limited** ('the Company, its subsidiaries and its jointly controlled entities constitute 'the Group'), which comprise the Consolidated Balance Sheet as at 31st March 2014, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

The management of the Company is responsible for the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the Accounting Standards notified under the Companies Act, 1956 (the Act) read with general circular 15/2013 dated 13th September 2013 of the Ministry of Corporate Affairs in respect of Section 133 of the Companies Act, 2013 and in accordance with the accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatements of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the Group's preparation and presentation of the consolidated financial statements that give a true and fair view, in order to design the audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and reasonableness of the accounting estimates made by the management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Examples of such estimates include the useful lives of tangible and intangible fixed assets, allowance for doubtful debts/advances, future obligations in respect of retirement benefit plans, etc. Difference, if any, between the actual results and estimates is recognised in the period in which the results are known.

30.5 Joint Venture Losses not considered

IJM-Gayatri Joint Venture

IJM – Gayatri Joint Venture is a joint venture in which IJM Corporation Berhad, Malaysia holds 60% and Gayatri Projects Limited holds 40% share. The Joint venture has executed road works during the period 1998-2006 in Package I, II & III and AP 13 of NHAI, APSH 7 and APSH 8 in the State of Andhra Pradesh.

An excess expenditure of ₹ 134.45 crores is incurred for completion of the IJM Gayatri JV by our company and the same is debited to the JV account. The JV has not accounted the same due to pending claims with the employers and with an intention to account the same as and when the claims are actually realised.

The JV has raised claims in excess of ₹ 300 Crores on the National Highways Authority of India and Andhra Pradesh State Government, which are pending for consideration before the appropriate legal forum. So far the joint venture has got favorable awards amounting to ₹ 61.99 crores including interest on claims and the remaining claims are under adjudication. Out of the favorable awards, the JV has received orders for release of payments for ₹ 29.01 crores and as against this the JV has received ₹ 18.70 crores which is passed to the Company. Further in respect of APSH-7 and 8, the honorable High Court of Andhra Pradesh has order to release 50% of the claim amount (about ₹ 3.00 crores) and the release of payment is under process. The management is reasonably confident of recovering substantial amount from these claims. In the unlikely situation of the claims not being received to the extent of expenditure incurred, IJM-Gayatri Joint Venture has to account the net expenditure of ₹ 115.75 crores (Previous Year ₹ 115.75 crores) in its books and the Company has to provide an amount of ₹ 46.30 crores (Previous Year ₹ 46.30 crores) towards its 40% share of loss in the joint venture.

During the year under review, SEBI has referred the above note to the “Financial Reporting and Review Board (FRRB)” for further examination and company has submitted the relevant information/explanation to the competent authorities. The matter is under examination with the FRRB.
